

SchiSTOP: expert panel meeting

28/04/2023, 1 - 3 pm CEST

Program

1:00-1:15 Federica Giardina: Introduction to the SchiSTOP project

1:15-1:30 Veronica Malizia: Individual based modelling for schistosomiasis: the importance of regulating mechanisms

1:30-2:00 Panel discussion:

- The role of the intermediate host: interpreting malacological surveys
- Mechanisms of immunity: triggers, protection and decay
- Disentangling exposure from immunity: informing the model using water contact data
- Which additional data can be used to better inform our models?

2:00-2:15 Break

2:15-2:30 Veronica Malizia: Implications of different regulating mechanisms on schistosomiasis dynamics and interventions

2:30-2:55 Panel discussion: model extensions and research gaps (modelling, science and policy)

2:55-3:00 Final remarks

Location

The meeting will be hosted on Teams.
